• Baguio City, Philippines

Summary

Full-Stack Developer and IT Professional with hands-on experience building user-focused web and mobile applications using modern JavaScript/TypeScript ecosystems (React, Next.js, Node.js/Express) and Python. Proven track record in API integrations, AI-powered feature development, and cloud-backed platforms. Winner and top finalist in multiple national and international startup and hackathon competitions.

Experience

New Creation 517 Bakery Urdaneta City, Pangasinan
Business Developer, IT Officer and Co-Owner 02/2026 - Present
• Implemented IT solutions and digital workflows to support regional business expansion, quality control, and compliance.

Makerspace Innovhub OPC Mapandan, Pangasinan
Student Intern, Full-Stack Developer and Project Manager 01/2026 - 04/2026
• Spearheaded frontend architecture for an Answer Engine Optimization (AEO) web platform using modern JS frameworks and custom components.
• Integrated multiple AI platform APIs to power real-time AI tracker features and data visualization modules.
• Led project management for a Region 1 startup consortium directory, organizing project roadmaps using Agile workflows.
• Designed and facilitated a Git/GitHub version control workshop for junior team members to standardize team workflow and code deployment practices.
• Evaluated and deployed CMS platforms, Smart Contracts, and SEO strategies for client-facing projects.

SRV - srvpinoy.com Baguio City, Philippines
Startup Founder, Marketing Manager and Frontend Developer 10/2025 - Present
• Architected and developed the main web application frontend using **React** and **TypeScript**, delivering a responsive, user-centric interface.
• Integrated **Google Cloud Platform (GCP) Maps APIs** to deliver real-time location-based features and interactive spatial visuals.
• Achieved 2nd place in the international WCHL National Rounds, Top 10 in the DICT AIDEAS Hackathon, and Top 10 in the JCI Angeles City Culiati Launchpad Competition.
• Managed Meta Business Hub campaigns to drive early user acquisition and digital strategy alongside core technical execution.

Benguet State University La Trinidad, Benguet
Student Intern 06/2025 - 07/2025
• Engineered the ML dataset pipeline by collecting, cleaning, and preprocessing hundreds of Cabbage and Potato leaf images.
• Applied image augmentation techniques to improve model accuracy and training robustness.
